Mr. Fewins and Ms. VanAmberg:

We would like to thank SMI Aerospace for having us students at the company. It was great to be able to take the skills learned in our Teams Training and utilize it in a real work environment.

The following is a report that contains the process of Plan Do Study Act that our team went through to reach our recommendations. We hope that it is very beneficial and helps the new addition to the quality assurance run smoothly.

The experience we gained from the whole project is greatly appreciated. Thank you, again, for giving us the chance to work with you. Please feel free to contact us regarding any questions you may have.

Sincerely,
